The early morning light amidst the shady Italian Cyprus trees on the Club's patio, the quiet bubbling water fountain soothing the moment, and the scented herb garden—all a part of a morning's greeting at our Quail Creek. With a steaming cup of coffee in hand, I'm treated to the vista of the dew-covered fairway of #18 Quail. It's all special.

How do we keep it special? How do we preserve the beauty of our natural surroundings and

the lifestyle that it offers? We keep it real, and we remain diligent in our long term planning. With the disciplined focus of prudent long range planning, steps are underway for completion of an engineering audit of the Club's aging infrastructure, and we have retained an outside consultant to shepherd us through the planning process. It's all for the purpose of evaluating the Club's facilities and to determine an optimal improvement plan that will enhance the enjoyment of our

Club. In doing so, we are driven to be receptive to the wants and needs of both our current and future Members. With the completion of the Member Survey in hand, a series of focus groups will be scheduled and moderated by our retained independent consultant to begin the planning process. Your dedicated participation and input is wanted and needed. We are taking our time. There will be no rush to the shovel to move earth. Prudent planning, patience and participation will be our companions along this journey.

Our Club differs from most in that many of our Members either stay here full time or are only gone a few months in the summer. This has allowed us to continue to keep our Staff engaged while preparing for what we expect to be an exciting season. With so much noise going on in the outside world, we know that our job #1 is to make this Club a wonderful place to escape to with good friends and an attentive staff.

I recently shared a detailed summary of the 2016 Survey, that was accompanied by a Progress Report on some of the changes which have been made or are underway or are being planned. If you are just returning, those of you who golf

will enjoy the short game range and the changes to Creek Hole #10 and Hole #13. The turf has had a lot of attention this summer and is showing improvement in root strength and overall density. And, for those of you who enjoy the sociability of this special Club, wait until you experience the exciting offerings at our events, which have been planned by Sherri Russell and Chef Scott Ross.

The Survey is only one way that we listen to you. My door is always open, and my job and that of my team is to make sure that this Club is all that you expect it to be and more. With your help, we will achieve this goal.

After this issue, our *Quail Trails* will become a quarterly publication filled with news of interest to all of our Members. While you will continue to hear from me from time to time in the *Quail Trails*, I will instead concentrate on sending you regular updates by email on changes we are making and other information you need to know about what is happening at your Club. Look for me in your inbox.

All the Best at Quail Creek.

It's all happening at Quail Creek Country Club (QCCC)! Our Staff has been very busy getting the Club ready for the upcoming 2016-2017 winter golfing season.

The summer cultural practices performed on both Quail and Creek courses were very successful. With the verticutting, aerification and topdressing of greens, tees and fairways, most areas are healthy and ready for play.

The Golf Course Maintenance Staff is excited to show off the new 10th tee on the Creek Course and our small pond with aquatic plants. Hopefully everyone is enjoying the new Shortgame Experience between the driving range and the new 10th tee. You can work on all kinds of short range shots up to 90 yards. Mike Dero will have short game clinics with a variety of shots to help improve your golf game.

QCCC welcomes our Members from out of town and our new Members. Come on out and enjoy your Club, golf courses, tennis and the bocce courts.

### ***MGA News***

The MGA has refocused on its prime objective, that of inclusion. Our goal is for all our members to feel welcome at any and all of our events. I recently had a conversation with an old friend who is a member at a club similar to ours in the Fort Myers area. The main difference between the men's golf experience at his club and ours is the MGA. His club has no MGA to pave the way for new golf members or to provide continuity for its existing members. Having the opportunity to be paired with old friends or a new member in an MGA event is what it's all about. Your MGA believes in fun, camaraderie and competition for all our Members to enjoy. Thank you all for your support. — *Joe King*

Let the games begin! I encourage you to join one of the Club's golf associations as a way to meet new people and get more enjoyment from your club membership. You don't have to be a star golfer. We have flighted events where you'll play with people of similar handicaps, and men... you can play from the green/white tees if you wish.

Watch for the Golf Pros to be stationed at the driving range more often this season. You'll see a sign that reads "Your Pro is on duty... ask me any question about golf." Please take advantage of this free Q&A session and play golf with more confidence.

The Golf Pros will also set up the Flight Scope golf ball tracking device at the range every Friday at 10:00 am for any Members who wish to test drivers or their swing speed.

I'm really excited about the construction of the new Shortgame Experience practice area on the west side of the range. Thank you, Kevin Leo and Staff, for this wonderful

new offering. Improving your ability to get on the green and closer to the hole from within 100 yards will definitely lower your scores. Remember the wise quote of Bob Rotella: "To become the best golfer you can be, you have to embrace your shortgame, love your shortgame, take full responsibility for your shortgame, and quit wishing you had someone else's long game."

I'd like to take this opportunity to introduce our newest golf shop employee, Michael Dodson. Michael is a college intern from Florida Gulf Coast University enrolled in the PGM program (Professional Golf Management). Michael is the university's current player of the year point leader in golf competition, and he can smash drives over 300 yards in the air. He's a native of Tampa, Florida, and is very knowledgeable about the Club website. Watch for many more pictures of winners and candid golf shots on the website thanks to Michael's good work.

## Lady Niners News

October events signaled a great start to our 2016-2017 season. Meet-N-Greet was, once again, a great success with new and current Members turning out to get acquainted, re-acquainted and to learn about what's in store for Lady Niners this year. Opening Day gave us a chance to "Celebrate Good Times" with our friends. Thanks to all who planned and attended these fine events.

As the holiday season begins, we will be giving thanks on November 3 to Jane Frasca, Sue Mark and Ginny Cringoli for planning our first Twilight event, "An Evening in Paris." We will begin "making merry" on December 1 at our popular Holiday Mingle thanks to the efforts of Lenora Mountain. At our Holiday Golf and Luncheon event on December 5, Shirley Noorigian and Helen Campobasso invite us to experience their "Winter Wonderland." We will again be putting our efforts together

to make the holiday season brighter for the teens of Angela's Angels by donating gift cards. Many thanks to Lady Niner Ann Genovese (pictured) who is working with the North Naples Fire Station to champion this important cause.

In the midst of all these festive events, regular play will continue every Monday morning. Sign up through the Website or the Pro Shop. While you're visiting the QCCC Website, click on "Golf Associations" under the "Golf" tab and then click on "Lady Niners Golf Association" to find out everything you need to know about the LNGA!

## From the Chef

*Scott Ross, CEC*

A few weeks ago I implemented the Sous Vide method of cooking to our filet mignon in the Greenside Grille. I've already begun to hear good feedback from the membership on this item. We will begin working on the next items soon.

The trend of Sous Vide immersion cooking is one that seems to be making an impact in the culinary industry. This cooking method involves sealing meat in an airtight bag and submerging in a hot water bath until the desired internal temperature is reached. The process seems simple enough, and the end result is a perfectly cooked piece of meat or vegetables that are tender and flavorful.

This method of cooking was first described in 1799 but was rediscovered by American and French engineers in the mid 1960's. Over the years the Sous Vide cooking method has made its way to high-end restaurants around the world and is featured on television cooking shows.

It is being used to quickly produce large quantities of meals for hurricane evacuees, as well as making its appearance in home kitchens to help simplify evening dinners.

The Sous Vide method of cooking cooks the food until it has reached its targeted temperature; the food will not overcook no matter how long it remains in the water bath. Once it is removed, it will not continue to cook. This is different from other methods of cooking that require the product to "rest." Resting causes residual heat to continue to the cooking process, potentially over cooking the product.

Season is here and we couldn't be happier! We would like to welcome everyone who spent the summer away from Naples back home, and we hope that your time away was fun and relaxing. The Quail Creek Tennis staff is now offering video analysis. Starting December 1, we will be able to analyze your strokes so that you can see your stroke production on the court in real time. We will also be able to email the video along with a written analysis directly to you. Ben and I are pleased to offer you this amenity at no additional charge above the standard lesson rate. You will be amazed at the difference this will make in your game!

Please remember to save February 17, 18, and 19 for the Club Championships. Play for all divisions will be on February 17 and 18, concluding with the finals on February 19. The first day to sign up will be Sunday, January 1, with registration closing at 3:00 pm on Wednesday, February 1. The actual start times and formats will be decided after registration is complete and will be dependent

on the number of participants in each division. The draws and start times will be posted a week before play begins.

The other day I was talking with several of my fellow professionals, and one of the questions posed to the group was how did the method of scoring come about. I decided to do some research on the subject and what I found was quite interesting. The exact origin of the game is debatable, but the most common consensus among historians is that it was

first played by French monks in the 12th century. The game continued to evolve and the scoring system we know today came about several hundred years later with the advent of the clock. Tennis at the time was played indoors in France and the players were inspired by a clock to help them keep score. They divided the clock into quarters and used 15, 30, 45, 60 (game) for the point scoring. Over the years 45 has been shortened to 40, most likely due to the fact that 40 is less likely to be confused with any other numbers.

I have been a sales professional throughout my career. I love getting to know people, and I enjoy offering a product for which I have great enthusiasm. How fortunate that life, through all its twists and turns, has brought me to Quail Creek Country Club where I can do both.

In the short time I have been here, I understand your enthusiasm about this Club and all that it has to offer. I am also learning that while the facilities and the golf courses and the social, golf, tennis and fitness programs are world class, what sets this Club apart are the people. All of you, Members and Staff, are amazing!

I recognize that our best source of new members is the Membership and the second best source are the realtors, particularly those who

belong here and know how special this place is. When I first arrived, I needed to understand how things worked here. My next outreach is to get to know every one of you, to learn how I can help you, to find out how you can help me.

I also know that there is just one of me and lots of you. So, help me, please. Introduce yourself to me when you see me around the Club,

whether doing a tour, checking out the latest styles in the Golf or Tennis shops, playing golf, having lunch or just passing through the Club. If I don't remember your name, be patient and give me another chance. Or, just stop by my office and say hello. Together we can accomplish a lot!
